

? Project description

● Why this project?

The *Adventures through the Bible* project was born from the desire to make a Bible drama series available in a modern and attractive audio format. We hope that, by listening to these programs, kids will love the Bible, will consider it relevant to their life and needs, will interact with its world and will hold to Christian values.

● What does each episode contain?

Each episode contains a life situation from kids' lives, a Bible story and age-appropriate teaching. Children are introduced to the world of the Bible by the main character, Sarah, a little girl like them, who is confronted with problems that kids can relate to. Sarah reads the Bible with her parents and takes imaginary journeys back in time, where she becomes familiar with Biblical customs, interacts with some characters and discover the answers to her questions.

● What is so attractive about this project?

- Bible text made understandable to kids
- Situations and dialogues that are lively, humorous and meaningful
- Relevant applications for their age
- Attractive musical soundtrack and sound effects

● Who is involved in this project?

This project is vast and involves the mobilization of many people and material resources. The production team will be composed of scholars, experts in child psychology, professional and amateur actors, technical experts etc. Recording will start in January 2011 and we estimate project will last 5 years.

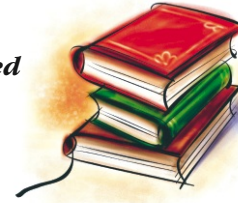

● Who will benefit from this project?

As we are recording episodes, we want to see these dramatized stories reach as many children as possible through Christian or secular broadcasting, in churches, orphanages, kindergartens, schools, Christian organizations, and bookstores.
